

VACANCY: ROPE ACCESS TECHNICIANS

ACROTECH

We are a Belgian company that has been specialized in working at heights, depths and hard-to-reach places for 20 years through industrial rope techniques, better known as 'Rope Access'. This ensures a very wide scope, optimum flexibility and safety.

Acrotech BVBA can guarantee optimum safety and quality to its clients thanks to highly trained staff (IRATA, BA4) and our VCA certificate.

The Acrotech team is a young and highly trained team. The work is always carried out by specialized people who have been active in the Rope Access sector for several years and who have received specific training.

At Acrotech BVBA, safety comes first. Thanks to our highly trained staff and our many years of experience, we can find a safe and fast solution in every field.
